CUMULATIVE AUTHOR AND SUBJECT INDEXES TO *STUDIES IN BLACK LITERATURE*, V. 1-6 (1970-1975)

prepared by

Eugene A. Engeldinger

Note to the User:

The bibliographic form used in this index is based on a combination of those recommended in the basic style manuals and my several yars of library experience attempting to decipher the bibliographc notes of others. The author index provides a complete reference; the subject index is slightly abbreviated, but sufficiently complete so as to avoid any problems with source verification.

It should be observed that volume four (4), issue four (4) is a printer's error, and presumably should have been volume five (5), issue one (1). I have chosen to use the volume four, issue four reference, since in the long run it may prove to be less confusing. No volume five, issue one references have been included.
